EDMONTON, ALBERTA, MONDAY, JUNE 4th, 1894.

SEMI-WEEKLY, 4 PAGES.

## LOCAL.

Wild cherry bushes are in bloom.  
Telegraph line down South of Wetaskiwin.

Thirty seven homestead entries in the Edmonton land office during May.

The contract for J. F. Adamson's new residence has been let to W. Easton.

Red currants have formed on the bushes and give promise of a most bountiful crop.  
D. Ross is preparing to fit up the building formerly occupied by the Imperial bank as a dwelling.

A Taylor is building a stone foundation under his residence and adding a wing. Ormsby & Folliott contractors.

A meeting of the county lodge of the patrons of industry was held in the council chamber, Edmonton, on Saturday afternoon last.

Goodridge & Kelly's scows arrived safely at Battleford with T. Dewar's contract of supplies, for the police and Indian department.

The department of interior is advertising for tenders for a timber birth on an island in Cooking lake in the Beaver hills. The island is 2 1/2 acres in extent, and the tenders are to be in on Saturday, July 7th.

The machinery of the Edmonton Creamery Company is being put in position in the building at Poplar lake. The building has been enlarged. The creamery will probably commence work in about ten days.

RANCE WILLIAMS, now in custody at Fort Saskatchewan charged with the murder of Geo. Steve, will be brought up for preliminary examination on Monday the 11th inst at 2 p. m. in the police barracks, Edmonton.

E. CAREY and T. Hourston returned from a trip to Lac la Biche on Friday. Roads were good and crops growing well. The people at Lac la Biche were very much afraid that they would be stopped from fishing by the government, they having no other means of support.

The Northern Lights foot ball club was organized last week with F. I. Cory captain. R. Ross vice captain, Geo. Voyser, secretary-treasurer. The membership fee is 50c., and practice is held every Tuesday and Friday evening at 8 o'clock on the race course.

The interior department is calling for tenders for timber birth 657, in township 54, range 26 west of the 3rd meridian. Tenders to be in by June 25th. This birth is north east from the site of Fort Pitt on the Saskatchewan and immediately east of the Union lake Indian reserve.

The death of Miss Augusta Tingley, teacher of the junior department of South Edmonton public school, took place on Saturday morning last, after an illness of about three weeks. The deceased was born in Nova Scotia, and came to Edmonton with her father and other members of the family in 1892.

A post office is to be opened on Stony Plain to be called "Spruce Grove," J. A. McPherson postmaster. This office is on the 14th base line, sec. 36, township 52, range 27 west of 4th meridian. It will be served from the present mail route between Edmonton and Stony Plain post office. It is about eighteen miles west of Edmonton.

MAYOR McCauley has received a letter from C. A. Magrath of Lethbridge who is now in Ottawa acknowledging receipt of the letter and resolutions sent regarding the judgeship at Edmonton. Mr. Magrath says that Messrs Bentley of Lethbridge, McKenzie of MacLeod, D. W. Davis, M. P. and himself waited on the minister of justice in reference to the matter of the resolutions and were definitely informed by him that no more judges would be appointed in the Northwest at present and that the present judges would be placed with due regard to the amount of legal work to be done.

The funeral of the late Miss Augusta Tingley of Poplar lake took place on Sunday forenoon from South Edmonton to the Baptist church, Edmonton where the funeral sermon was preached by Rev. A. Macdonald pastor of the church. The coffin was decorated with many flowers in tasteful designs. The children of the school taught by the deceased attended the funeral in a body. The church was crowded, and a most affecting and appropriate discourse was delivered. The interment in the Edmonton cemetery was attended by a very large number of friends from both sides of the river.

The Willing Workers of All Saints church, held a very successful garden party in the church grounds on Friday afternoon last. The grounds were most suitable for the purpose, the trees giving excellent shade and there still being open ground to give plenty of room for moving around. An excellent tea was served from five to seven o'clock, and the tables were well patronized. An ice cream table, sale of fancy work and fishing pond, managed by the ladies of the society, added to the attractions of the occasion and netted a handsome sum for the funds of the church. The fine brigade band was present and by their excellent music added greatly to the enjoyment of the occasion.

The steamboat excursion of the Societe St. Jean Baptiste, d'Edmonton, to Fort Saskatchewan yesterday was a grand success. The excursionists numbered about 75 ladies and gentlemen. The steamer left the lower ferry landing promptly at 7 a. m., and made the run to Fort Saskatchewan, nearly 30 miles by river, in two hours and five minutes. The increased room on the boat accommodated the large party very well. The Edmonton brass band added greatly to the enjoyment of the trip. On the arrival of the steamer at Fort Saskatchewan the party attended mass in the church of Notre Dame des Lourdes on the north side and afterwards lunched in the grove near the church. They then went over to the police barracks and town on the south side and took in the sights there until it was time to start for Edmonton. The start home was made at 4:30, and Edmonton was reached at 10:30. No accident occurred and every one enjoyed the trip immensely. D. R. Fraser was captain of the boat; D. Macrae, pilot, and James Oumand, engineer.

W. B. STENNEY bought an \$18.00 lot fur from Jos. Bird on Friday.

A RATT of lumber from Chave & Co.'s mills arrived last week for F. A. Osborne's yard.

The steamer Northwest passed Moose telegraph office on Sunday night about nine o'clock. She will probably reach here tomorrow.

A. SPENCE correspondent of the Burk's Falls, Parry Sound district, Ont. Arrow, of the issue of May 4th, says: "Farmers are preparing for sowing, some have already started. This should be good evidence as to the earliness of seeding in the Edmonton and Parry Sound districts. It may be well to mention that the spring was particularly early in Ontario and particularly late at Edmonton; and yet seeding was well advanced at Edmonton on May 1st."

## TEACHERS INSTITUTE

A teachers institute will be held at Edmonton in the public school house on Friday and Saturday the 29th and 30th of June which will be presided over by D. J. Goggin, superintendent of education for the Northwest. Mr. Goggin will read papers on English history, Literature, Primary reading and composition, A. M. Campbell, principal of Edmonton public school will read a paper on English Grammar, E. J. Welbourne, first assistant teacher in Edmonton school, will read a paper on arithmetic, C. B. Beck, teacher of Belmont School will read a paper on geography, Miss L. A. Short teacher of Edmonton school will also read a paper.

On Friday evening June 29th Mr. Goggin will deliver a lecture to the public in Robertson hall on "Dr. Arnold, the model school master."

## PATRONS OF INDUSTRY.

At the meeting of the county lodge of the Patrons of industry held in the council chamber, Edmonton, on Saturday afternoon last, it was moved by D. Maloney, seconded by W. J. Chisholm, and Resolved that in the opinion of the patrons of industry in North Alberta the electoral district of Alberta should be divided, so as to give this northern portion of the present district representation in the federal parliament. Carried unanimously.

M. McKINLAY, Secretary.

Edmonton, Alta. June 2nd 1894.

## RESOLUTION OF CONDOLENCE.

The following resolution was passed by county association of the patrons of industry which met in the Council chamber, Edmonton, on Saturday afternoon last:

This county association of the patrons of industry unanimously tender Mr. and Mrs. George S. Long our heartfelt sympathy in their bereavement in the loss of their dearly beloved son Ernest, aged seven years, and more lately that of their eldest daughter Mary, aged 16 years, which has cast a gloom over the whole community; it being only a few weeks ago that their cheerful voices were heard amongst the children on the school grounds; but now they are laid in their narrow cells and their kind and loving words will be no more heard in this life; which plainly reminds us that in the midst of life we are in death.

MALCOLM McKINLAY, Secretary.

Edmonton, June 2nd 1894.

## NEW ADVERTISEMENTS.

### NOTICE.

All parties having accounts against the late Rev. G. Hanna will please hand them to W. T. Henry. All friends having books borrowed would oblige Mrs. Hanna by returning same before Wednesday evening.

### NOTICE.

Came to the premises of the subscriber, Edmonton a small stallion, two years old, branded K F on left shoulder. Owner to prove property, pay charges and take away or the animal will be sold as provided by law.

M. McCauley.

### FOUND.

On Saturday last, a cheque for a considerable amount. Apply to A. A. TAYLOR, Postmaster, Edmonton.

### \$5.00 REWARD.

Lost about the middle of April a sorrel horse four years old, branded diamond E. Weight about 1,100 pounds. Has white face, and two white hind feet. ROBERT CROCKART, Upper Ferry.

## PHOTOGRAPHING.

PHOTOGRAPHS of the latest styles can be had by leaving your measure at the Art Gallery, Edmonton.

W. MATHERS, Artist.

### LOST.

From Beaver Lake, a heavy team of working mares in foal. One all black, one bay with two white hind heels, little white on off fore foot and white face. Weights about 1,500 pounds each. Reward will be paid on their recovery.

GEORGE COOKSON, Beaver Lake.

Oh, but it is hot.

Well, better put away that heavy felt hat and get a nice cool straw. Yes, we have lots. Prices 10c. to \$1.50. Then look over some of our light coats and vests, different makes and styles, just what you want for this warm weather. Then a light suit of Underwear. Well, we have that too. Cotton, Natural Wool, Balbriggan at prices from 75c. per suit up.

Don't like Ready-Made Clothing? Well, let us make you a suit to order. We have a large stock of Light Tweeds just for hot weather. Stylishly made and by the best mechanics.

In all lines we guarantee satisfaction.

Sutter & Dunlop,

GENTS' OUTFITTERS.

## H. B. Co.

## The Reasons Why

It will pay you to buy from the H. B. Co.'y.

Because our Boots and Shoes are manufactured specially for us by the best Canadian and American makers.

Because at the prices we sell them they offer the best value for your money.

Because for men's wear they are the cheapest and most durable.

Because for ladies' wear we show a more complete and varied stock than any house in town.

Because for Misses, Boys and Children our stock is complete.

Because for all we offer you a choice, whether you aim at appearance, ease or durability, or a combination of all these qualities.

We are offering special lines of Bicycle and Tennis Shoes.

Each change in weather as the warm season approaches brings with it the necessity for a change of headwear. Just now we want to sell you

## Straw Hats.

Gentlemen—Before purchasing elsewhere call in and price our Straws. They are this season's newest shapes, and like our Felts are the lowest in price offered here.

Ladies—We have the daintiest and prettiest shapes in Sailors' and Fancy Straws at remarkably low prices. The same may be said of our Girls' and Child's Sailor Straws, which for value defy competition.

## Cowboy Hats.

We have just opened our J. B. Stetson No. 1 quality Men's Cowboy Hats. These Hats wear well and keep their shape. Don't be deceived with imitations.

## Athletes and Cyclists

Buy your Suits, Caps, Jerseys, Shirts, Belts and Stockings, etc. from us and save your money by doing so.

## Dress Goods.

There are still a few of those costume lengths left. They are the latest, and if you require a dress, one can be secured very cheaply by purchasing from us.

Soon the cry will be "Oh, this sultry hot day." Be ready for such days and have one of those light beautiful dresses from our stock of all wool Delaines at 25cts. a yard, cotton Pongees, you can scarcely tell when made from silk, at 17cts. a yard. Zephyrs, Scotch Gingham, Lawns in colors and Cashmerettes in black grounds, with the sweetest patterns in Sprays at 17c. a yard.

These goods make ideal dresses, beautiful in appearance and economical.

THE

Hudson's Bay Co.

(Incorporated 1870.)

## Summer Lace Hats. SUMMER STRAW HATS

—AT—

## Miss Charbonneau's

Several shades in Felt.

A large stock of Fancy Work.

DRESSMAKING! — First class work, latest styles and lowest prices.

Give me a call.

No trouble to show goods.

## Ladies...

Concerning your new dress! What shall it be made of?

If its to be a calico dress there is nothing more varied in style and price than our stock of Calicos from 8 to 15c. Prints with linen effects 15c.

If its to be a Woollen Dress there is nothing to beat our All Wool Navy Serge (42) 75c. " " Grey " (42) 60c. " " Cashmere 50c. " " Challis 40c. " " Delaines 35c.

There is something about our goods which satisfy the most particular of customers, and YOU are invited to come and find out what it is.

EDMONTON BULLETIN, JUNE 4TH, 1894.

## THE DAIRY INTEREST.

The notice which appears in another column as to the programme of dairy instruction to be given in Manitoba and the North-West this year under the auspices of the Dominion department of agriculture should receive careful attention from the farmers of the country. It is a well known fact that Canada is a country well suited for dairying throughout its whole settled area, and it unfortunately also is well known that while excellent butter is made in Canada, the average quality of the total make is so low as to practically debar this country from competition in the markets of the world and therefore dwarfs this what should be a leading branch of the farming industry to small proportions. This applies locally as well as generally. There is a large proportion of excellent butter made in this district and yet it is a well known fact that in the summer months when production outruns demand the local market becomes glutted and cannot be relieved by export. This is a serious state of affairs, and requires a remedy. If the case were not plain enough before that the lack of market for Canadian butter was because of the quality of the butter and not because the world did not want butter, the experience of Australia would supply it. Australia has but a fractional part of the advantages possessed by Canada for the making of good butter, and yet Australian butter is sold in England by the hundreds and thousands of tons where Canadian butter is not sold at all, and even in British Columbia, right at our own door, Australian butter is being sold in competition with ours. The remedy for this state of affairs is improved methods and co-operation, one or the other or both. It is not enough that one or two or half a dozen people shall make good butter. The whole of the butter made must be of good quality in order to establish an export trade. There can be no doubt that the information afforded by the dairy commissioner in his tour will be of the greatest practical advantage, not only to co-operative institutions but to individuals as well and it is to be hoped that full advantage will be taken of the lectures to be delivered for which dates will soon be arranged. It will be necessary however for the people to take some little trouble in order to have the benefit of these lectures. In sending the lecturer and his apparatus, the government is doing its share, and the people must supply the hall and the milk upon which the experiments are to be made. Unless they take enough interest in the matter to do this they will not take enough interest in the lectures to turn them to valuable account. This is a matter for the attention of the agricultural societies.

## TWO OPINIONS.

The Empire referring editorially to the knighting of President Van Horne, says: "If services to the Empire count as they certainly do in the bestowal of these honors, then the president of the C. P. R. has rendered services such as few others have done for the way in which he has managed the road. He has made it the greatest connecting link of the empire, and destined to play a more important part still in the future in bringing the outlying parts of the British empire together, and cementing that consolidation which at one time was considered the dream of enthusiasts, but is now rapidly advancing beyond that stage. In congratulating Mr. Van Horne on this mark of appreciation from Her Majesty, our people feel it may be taken also as an honor to Canada, being bestowed because of his connection with a great Canadian undertaking."

The Nor'Wester says: "W. C. Van Horne a Knight of the Order of St. Michael and St. George! Can it really be true? What Canadian Minister took upon himself the responsibility of recommending the honor? We are not so ready to prophesy as Mr. Van Horne, but we will venture to predict that the conferring of what is held to be a British title of honor on this American adventurer will operate very much as a whole tank of cold water on the backs of honorable Canadian gentlemen who may have had such distinctions in view, in return for great public services honorably performed."

## THE PRISONER.

Rance Williams, the man suspected of having murdered George Steve in September of 1892, was brought in from Wetaskiwin on Thursday's train by Inspector Snyder, and lodged in the Edmonton police barracks. Corporal Cowan, who acted as detective on the case remained to look up further evidence and Constable Dundas drove in by team, which took the police party out to Inspector Snyder and the policeman left Edmonton on Tuesday morning by team for Wetaskiwin. On Wednesday they drove from Wetaskiwin to Bittern lake about twelve or fourteen miles east of Wetaskiwin, where the prisoner resided with his family in a dug out on the bank of the lake at its south end, about two miles from Battle river at its nearest point and about six miles from the Selva settlement on Battle river. The family consists of the father and mother, wife and two grown up brothers of the prisoner, all living in the one dug out and apparently very poor and very shiftless. Their farm improvements amounted to five or six furrows of plowing on which a few hills of potatoes were planted, without being fenced. Their stock consisted of three horses. The prisoner was not at home, and on enquiry being made as to where he could be found, Mr. Snyder was informed by the mother that he had gone to Macdonnell's store in the Battle river settlement. Leaving the policemen to watch the dug out, Mr. Snyder rode to the settlement and found his man. On being informed as to the reason for his arrest he did not appear particularly disconcerted, merely remarking, "That's strange," and submitted quietly. Mr. Snyder brought him back to the dug out, and with the two policemen returned with him to Wetaskiwin where they awaited Thursday's train. The family came from the town of Tabor, Polk County, Minnesota, in the summer of 1892, and the same fall went out to Bittern lake and settled there. They do not bear a good reputation in Wetaskiwin. They are not willing to work and do not seem to have any adequate means of support. Last winter they lived chiefly by hunting. Their nearest neighbor at Bittern lake is about two miles from their place and their neighbors seem to know very little about them. The prisoner takes his arrest coolly and does not seem much concerned. Since his arrest and the publicity which it gave the case additional evidence has been offered the police which increases the suspicion against Williams, but of course there is and can be nothing but circumstantial evidence against him.

W. BEAL-IRVING,  
Cochrane, Alberta.  
P.S.—Also a number of good teams and (half) horses (mares or geldings) for sale, or will trade for cattle.

# ASSISTING THE DAIRY INTERESTS.

The following circular has been published over the signature of the Dominion Dairy commissioner:

The Dominion government has made provisions for the maintenance of two travelling dairies in Manitoba and the Territories. They will be under the direction of the dairy commissioner. The object of the travelling dairies is to afford those who are engaged in butter making an opportunity to gain further exact, practical and helpful information on all parts of the process, from the separating of the cream to the printing and packing of the butter. One expert butter-maker and an assistant, with an outfit of dairy utensils, including a centrifugal cream separator, a churn, a butter worker, a Babcock milk tester, etc., etc., will compose each travelling dairy. Two days will be spent at every place which is visited, if the local committee make the necessary preparations of a place of meeting, a supply of milk and a supply of cream. The programme of instruction and illustration will be arranged, as far as practicable, in accordance with the following time cards:

First Day—1. Running of centrifugal cream separator, and separating cream from about 20 gallons of milk to be supplied by the local committee; 2. Testing samples of milk; 3. Preparing about 2 gallons of cream, to be supplied by the local committee; 4. Churning of cream supplied by the local committee; 5. Making butter, etc.; 6. Ripening of cream from centrifugal separator; 7. Address on butter-making.

Second Day—1. Testing samples of milk; 2. Churning cream from centrifugal cream separator, and making butter; 3. Running the centrifugal cream separator; 4. Discussion on dairying.

To enable the farmers, their wives and families to get as much benefit as possible from the practical teachings of these travelling dairies, it is necessary that a local committee or individual, in every place to be visited, should arrange beforehand—1. For a convenient place of meeting; 2. For a supply of twenty gallons of sweet whole milk, to be furnished on the morning of the first day; 3. For the supply of two gallons of cream (ripened if practicable) also to be furnished on the morning of the 1st day; 4. For the distribution of bills (similar to this which will be furnished free) announcing the date and places of meetings, widely and thoroughly in the surrounding country.

Farmers are invited to bring samples of whole milk, of skimmed milk and butter milk, to be tested; about half a tea-cup full is plenty for each sample.

In many districts in Manitoba and the Territories, dairying can be followed with profit and success. The soil, the pasturage, the fodder crops and the climatic conditions as well as the demands and opportunities of the markets, are all suitable for the production of the finest quality of milk, butter, cheese, beef and bacon. By a system of mixed farming, the growing of wheat at a profit may be helped and not hindered; and thereby the farmers may protect themselves from the very serious risk of loss and failure which is incurred by any individual or community in the western provinces, that depends wholly or mainly on one crop or on the selling of grain only. I urge the farmers and business men generally to avail themselves of the benefits which these travelling dairies are intended to give. The women from the farms are especially invited to be present at the meetings. If you are interested in the welfare and progress of the district where you live, you are hereby invited to see that a local committee is formed and that it makes the necessary preparation for your locality in good time.

JAS. W. ROBERTSON,  
Dairy Commissioner.

## FROST IN THE STATES.

The weekly weather report issued at Washington, for the week ending May 21, says: "The week has been one of unusual temperature extremes, the difference between the highest and lowest temperatures amounting to as much as 60 degrees in the upper Missouri valley, and ranging from 40 to 60 degrees over the greater portion of the country east of the Rocky Mountains. Ice formed in Wisconsin, and snow fell in Michigan, Indiana and Kentucky, being unusually heavy in the eastern and central portions of the last named state, which was covered with from two to eight inches on the 20th. In Kentucky and northern Florida the temperature reached the lowest point that has been recorded in May since the establishment of the weather bureau. Frosts, more or less damaging, occurred in New England, the lake region, generally throughout the states of the upper Mississippi, Missouri and Ohio valleys, and as far south as northern Mississippi."

Huron, South Dakota, May 19: A stiff coat of ice formed 1/2 inch thick last night, cutting oats, barley and corn to the ground. Early vegetables killed; wheat not injured so much, the only rain we have had for some time was a light shower on the 17th and in some parts of the country only a slight drizzle. At Yale it did not rain enough to make the eaves drip. It is not a very safe rule to count your chickens before they are hatched and you can only tell how wheat will yield when it is in the half-bushel.

Topeka, Kansas, May 20: Thursday night the temperature fell rapidly throughout Kansas, and Friday and Saturday nights heavy frosts occurred. Wheat fields have turned brown from the effects of the frost, and growth will undoubtedly be retarded.

Omaha, Nebraska, May 20th: Reports from fifty counties in Nebraska show that the frost last night was general over the state. Winter wheat in many sections is turning black, but farmers generally are of the opinion that it will recover from the set back.

Clinton, Iowa, May 21. Reports from agricultural districts extending over a distance of a hundred miles are that the frost Saturday night was general and heavy, freezing small grain, vegetables and even clover, which blackened and wilted the next forenoon.

Bathford Herald: The government have adopted the remnant of Sioux who have so long been living in Prince Albert, and given each family forty to eighty acres of land, according to its numbers, with some assistance to set up for themselves. They are good workers, and have always supported themselves by their labor. They are on the north side of the Saskatchewan, near Prince Albert, in Mr. Keith's agency, and are glad to be settled on land of their own.

## POST OFFICE REGULATIONS.

The following notice has been posted in the Edmonton Post Office.

"Everyone who encloses a letter or letters or any writing intended to serve the purpose of a letter in a parcel posted for the parcel post or in a packet of samples or patterns, or in a newspaper posted to pass as a newspaper, or in any mail matter sent by post not being a letter, shall incur a penalty not exceeding \$40 and not less than \$10 in each case.

"Every one who fraudulently removes from any postage stamp any mark which has been made thereon at any post office is guilty of a misdemeanor.

"Every person who uses or attempts to use in prepayment of postage any postage stamp which has been before used for a like purpose shall incur a penalty not exceeding \$40 and not less than \$10 for each offence."

## GENERAL NEWS.

Calgary Herald: When No. 1 arrived from the east on Sunday night two children, members of a German immigrant family, were found to be sick with measles. It appears that the mother and remaining child had been placed in the hospital at Winnipeg, having been found to be suffering with the same disease when approaching that place. These two having recovered they were allowed to proceed, but while on the journey the disease broke out again. The car was side-tracked and the whole family taken to the general hospital, the car and waiting room being thoroughly fumigated.

Calgary Herald: From a passenger on yesterday's train a Herald reporter learned the trip over the C. P. R. through the mountains just now is not without excitement. The train left Vancouver on Thursday morning and proceeded on its journey safely until Kamloops was passed, when a bridge was found to be down. The bridge was repaired and Sicamous was reached. A mudslide was seen to come down the mountains just behind the train cutting off the road to the west. Three bridges were found down east of Sicamous, the worst break being at Eagle river. The pile-driver was found to be useless here and the break was repaired with two carloads of rock. The bridge was then loaded with steel rails and the train crawled slowly over, the water being up to the car platforms for a mile. In the Eagle Pass the water is at least five feet higher than it was in 1887, the last year the water gave trouble. At Griffin lake another slide was met, over which a temporary track was built. It would have taken five days to clear away the debris. Shuswap lake is now an inland sea, about 70 miles long by 20 wide. The water rose 1 1/2 feet during the night the train lay at Sicamous. In the Fraser river canyon the water rose 24 feet on Thursday night. The bridge at Revelstoke across the Columbia is very shaky and a tree carried away a portion of the bridge across the Bow at Banff on Sunday night. The warm weather coming so early in the season and melting so much snow in the mountains will probably mean low rivers early in the season.

## Ladies, Note This!

To clear out the remainder of a splendid line of Ladies' Summer Jackets and Capes, I am throwing off 20 per cent. discount. Striped Tennis Flannel Suitings, only 50c. per yard; price for same material down east, 65c.

## MASONIC EXCURSION.

C. W. Sutter, W. M. of Edmonton lodge, A. F. & A. M. has received a communication from Supr. Whyte of the C. P. R. stating that a passenger agent will accompany the masonic excursion from Winnipeg to Banff, to the meeting of the grand lodge which opens there on June 13th, and that if enough of the excursionists desire to visit Edmonton before their return to Winnipeg they will be given the round trip at single fare.

## WOOL GROWERS.

A meeting of the Edmonton Wool growers association was held in the council chamber, Edmonton, on Saturday afternoon June 2nd. T. G. Hutchings in the chair, J. R. Turnbull, secretary. Twelve members were present. A communication was read from G. Medley of Waterloo, Oregon, regarding terms for the erection of a woolen mill in Edmonton. The secretary was instructed to inform Mr. Medley that a smaller mill than the one suggested by him would meet present requirements, and that a mill, one department of which would run as a woolen mill for part of the year and an oatmeal mill for the rest of the year would meet present requirements. It was decided to advertise in the Toronto Globe and Mail stating the advantage offered for a woolen mill and to solicit correspondence. The secretary was instructed to write to the Midnapore and Rapid city mills asking prices, and terms for taking tweeds and blankets in return. It is proposed to send the total clip of the district, about 20,000 pounds, in one consignment in charge of an agent who will conduct the deal on behalf of the wool growers. The meeting adjourned to hold another meeting on the last Saturday of June.

## CRICKET.

Saturday was a perfect day for cricket, but the attendance of spectators was not larger than usual. The game was one of the most interesting ever played on the Edmonton grounds. Time was called before Edmonton had completed its second innings, the result being that the game was decided in the first innings 81 to 56 in favor of South Edmonton.
